The Honorable Mayor and City Commission  
Marquette, Michigan 49855

Dear Commissioners:

The Public Works Advisory Board met on December 5, 1984 to discuss the selection process for architectural and engineering services for the Public Works Service Center and Bluff Street Parking Structure projects.

Questions and concerns raised at the November 21, 1984 Public Works Advisory Board meeting prompted the Advisory Board to request the City Commission to table the architectural and engineering contracts until reviewed by the Advisory Board.

After discussing the selection process with city staff and two local architects present at the special meeting, the Advisory Board unanimously concurred to award the two projects to Sundberg, Carlson and Associates.

The Advisory Board will review the street engineering contracts at its December 19, 1984 meeting.

Respectfully submitted,

*Michael A. Etelamaki*
