Subject: Utility Bill Delay

Date: May 29, 2012

City utility bills that were scheduled to be mailed on May 18, 2012 have been delayed due to technical issues. City staff and the software provider have been working on the problem.

We hope to have the issue resolved by Wednesday morning. Utility bills will be mailed as soon as possible. Residents may, if they prefer, use their last utility bill to make an estimated payment or they may wait until they receive their bill. Any late fees will be waived. We apologize for the inconvenience.
