

HISTORIC PRESERVATION WORKSHOP

Peter White Public Library - 217 N. Front St. Marquette, MI. 49855

April 13 - 14, 2012

Michigan Historic Preservation Network invites you to attend a FREE 2-Day workshop on the historic preservation of homes and small commercial buildings.

Most owners of older and historic homes and small commercial buildings want to maintain and preserve their properties' historic character, but often don't know how. These same owners want to boost their energy conservation and better understand lead-based paint hazards. If you are such an owner, come and meet with preservation professionals who will discuss these challenges and offer information and demonstrations to help you. This primer to historic preservation will give you the basics and a framework from which to begin your projects that will result in a well maintained building that showcases its historic character.

Who Should Attend: Homeowners, Small Commercial Building Owners, Building Managers

Day One: Friday, April 13th, 8:30 – 5:00

Community Room

Topic Discussions:

- Historic Preservation Overview
- Building Assessments
- Lead Based Paint/Hazardous Materials
- Case Study of Calumet Homeowner Project

Day Two: Saturday, April 14th 8:30 -5:00

Lions and Shiras Rooms

Preservation Trades Demonstrations:

- Masonry Cleaning and Restoration
- Wood Window Repair
- Energy Conservation/Weatherization
- Wood Repair/Maintenance

Morning coffee and box lunches will be served daily to provide an opportunity for networking

RSVP: Admission is free, but space is limited and participants must register in advance.
