Subject: Utility Bill Delay

Date: August 9, 2012

City utility bills that were scheduled to be mailed on August 6, 2012 will be delayed as the City transitions to an entirely new billing system. Following the transition, customers may notice a three week billing interval for a few months until the billings are back to the normal schedule.

Residents may, if they prefer, use their last utility bill to make an estimated payment or they may wait until they receive their bill. Any late fees will be waived. Your patience during this transition period is greatly appreciated and we apologize for any inconvenience.
