

## PUBLIC SERVICE ANNOUNCEMENT

For Immediate Release

**May 9, 2013**

For More Information:

**Department of Public Works/228-0444**

### **WATER MAIN BREAK - EAST WASHINGTON STREET**

Due to a water main break during the East Washington Street Reconstruction Project, area residents may experience air and discoloration in the water. Taps may need to be run to let out any air and to flush out any discoloration. Grit may build up in the aerators located at the ends of the faucets which may cause decrease in water flow. Simply clean out the aerator by removing it and tapping out any grit.

If discoloration or low water flow continues, please contact the Department of Public Works at 228-0444.
