City of Marquette Engineering Department / 225-8979

SIDEWALK REPAIR AND EXTENSION PROJECT SET TO BEGIN

Beginning at 7 a.m. on Thursday, July 31, contractor U.P. Concrete Company will be replacing sidewalk at designated sections throughout the City of Marquette. These locations have been prioritized by City of Marquette personnel based on the severity of the elevation difference in the adjoining sidewalk squares. Pedestrian access may be limited in the immediate area of the repair but should be only a few days in duration. It is anticipated that the sidewalk work will be completed by the end of August. The City of Marquette asks you for your patience during these needed utility repairs. Work is scheduled to start on the north end of town and proceed to the south.

The public is advised to use caution when traveling through this area and to be alert for construction and advisory signing.

The City of Marquette asks you for your patience during this construction process.
