Department of Public Works/228-0444

CITY OF MARQUETTE LET-RUNS

Due to the deep frost levels, many residents in the City of Marquette were advised to let their water run to prevent water lines from freezing.

If you were placed on a let-run, this is a reminder **not** to shut your water off. Although the air temperatures are warming up, the ground is still frozen and needs more time to thaw before the possibility of pipes freezing is eliminated. The City will notify these residents when the let-run advisory has been lifted.

Any updates or additional information can be obtained through our City website as well as future Public Service Announcements.
