PUBLIC FORUM SET TO DISCUSS EXPANSION OF RECYCLING PROGRAM

The City of Marquette will be conducting a public forum on Jan. 28 in order to discuss the upcoming expansion of the City's dual-stream recycling program.

Successes with the City's current dual-stream system, which has been in place since May of 2014, have spurred a future expansion of the program. Soon, some new items will be recyclable through curbside collection, and the City will be looking to distribute program-specific collection bins to residents.

The forum is scheduled for 5:30 p.m. on Jan. 28 in the Shiras Room of the Peter White Public Library. Please note that this is a "Public Forum" and not a City Commission meeting; however, members of the City Commission may be in attendance.

More information on the City's recycling system can be found at www.mqtcty.org/pworks-recycle.php.
