### **Maintenance Work on Lower Level of Bluff Street Ramp Entrance**

On Monday, June 6, the Marquette Downtown Development Authority will be conducting maintenance on the east entryway to the lower level of the Bluff Street ramp. The entryway will be closed at 8 a.m. and work is expected to be completed the same day. The exit on the west side of the lower level of the Bluff Street ramp will remain open, so that those with 24 hour reserved parking permits are able to exit the parking structure. Those who have a 24 hour reserved parking spot, or those who utilize the two-hour parking spots located there are encouraged to park in the upper level of the ramp on that day.
