TRAFFIC DISRUPTIONS DUE TO CLEANING AND TELEVISIONING

Beginning the week of Tuesday, Sept. 6, various areas in the City of Marquette will experience traffic disruptions due to cleaning and televising of the City's sanitary and storm sewer mains. Upper Peninsula Rubber Co. will be performing the work at various locations throughout the City.

This project is being funded by a Storm Water, Asset Management and Wastewater (SAW) grant through the State of Michigan. Televising will be performed using state-of-the-art 3D video inspection equipment. Televising of these mains will provide the City of Marquette condition ratings that will aid in decision making for future asset management.

The public is advised to use caution when traveling through these areas and to be aware of all traffic control. Work will be ongoing until July of 2017.
