

## PUBLIC SERVICE ANNOUNCEMENT

For Immediate Release  
**April 3, 2017**

For More Information:  
**Upper Peninsula Rubber Co. / 786-0460**  
**Engineering Department / 228-0440**

### **TRAFFIC DISRUPTIONS – SANITARY AND STORM SEWER CLEANING**

Beginning this spring and continuing until the fall of 2018, various areas in the City of Marquette will experience traffic disruptions due to cleaning and televising of the City's sanitary and storm sewer mains. Upper Peninsula Rubber Co. will be performing the work at various locations throughout the City of Marquette.

This project is being funded by a Storm Water, Asset Management and Wastewater grant through the State of Michigan. Televising will be performed using state of the art 3D video inspection equipment. Televising of these mains will provide the City of Marquette condition ratings that will aid in the decision making for future asset management.

The public is advised to be aware and to follow all traffic controls. Work will be ongoing until the fall of 2018.
