HOSPITAL TRANSPORTATION IMPROVEMENTS – MEET AND GREET

The Marquette Hospital Transportation Improvements Project has gone through the bidding process and the City Commission at their April 10 regular meeting will consider approving Bacco Construction Company for this project, as recommended by the City Manager and staff.

As part of the process the City will hold a public meet and greet event in the Commission Chambers on April 12 from 5 to 6:30 p.m. This will give the public a chance to meet City and contractor staff that will be instrumental in managing this project.

The project is anticipated to start in the next few weeks. The start will be based on the City receiving all the documents required from the contractor to begin construction, as well as securing purchase agreements for property acquisition. The project will be phased to minimize disruptions to the public.

Weekly updates will be provided by the City on the project, and will focus on progress and traffic changes and detours, as well as other areas of interest.
